PRACTICAL TOOLS FOR EDUCATORS

Clear & Capable

by Niko Arranz

Make it clear.
Make it useful. Make it yours.

Clear & Capable is a growing collection of practical tools for educators and club advisors who want students to understand the work, make meaningful decisions, and take responsibility for their contributions.

Created by Niko Arranz

A business and computer science educator, club advisor, and coach. The work begins with a question: what would help someone understand the next step and take ownership of it?

Start with the Project Clarity Builder.

Use the free tool to shape a project brief. Download the Project Clarity Starter to plan a purpose, useful result, boundaries, and first step with your team.
